1 direction or another?

2 **A. I don't recall. I haven't done PLM in**
3 **such a long time.**

4 **Q. Who are you relying upon in your**
5 **laboratory to do the PLM analysis?**

6 **A. We have a couple people that do it.**

7 **Q. Who are they?**

8 **A. Paul Hess is one, Bill Egeland is one.**
9 **Those are the two -- those are the two primary people**
10 **who do it.**

11 **Q. Would Mr. Hess know what particles would**
12 **show a parallel extinction?**

13 **A. He may know all of them. If we just go**
14 **to, you know, the parallel extinction for tremolite**
15 **oblique, I think they call it, and then if you go to**
16 **ones with the anthophyllite, it will tell you what**
17 **the parallel extinction is for that.**

18 **Q. Does tremolite ever show parallel**
19 **extinction?**

20 **A. I don't think so. And again, it's been a**
21 **while since I've done this. The next time we talk I**
22 **can explain it all for you in more detail.**

23 **Q. Would there be a difference between**
24 **asbestiform and nonasbestiform tremolite as it**
25 **pertains to extinction angles?**
